EXECUTIVE SUMMARY

Eland Greens is a farming entity, with its main focus on horticulture, specializing in vegetables and herbs. The entity started operating in 2017 when the directors bought a small holding farm in Walkerville. The primary aim being the creation of employment and self-sustainability. Since then, the project has grown into a farm that is supplying several supermarkets across Gauteng.

VISION

To become a world class supplier of healthy food to our people, at the same time contributing to our economy by way of employment creation.

MISSION

The mission of the business is to create employment and contribute towards poverty alleviation in the community, through the production and supply of health vegetables and herbs to our people.

OUR PRODUCTS

Eland Greens focuses on the intensive production of vegetables and herbs. A combination of applying modern concepts coupled with the usage of conventional knowledge in crop growing has ensured the farm grows quicker and is becoming a role player in the industry. The following products are grown on a rotational basis at the farm:

HERBS

- *Dhania*
- *Fenugreek (Methi Bhaji)*
- *Spring Onions*
- *Baby Spinach*
- *Parsley*
- *Rocket*

VEGETABLES

- *Spinach*
- *Mustard Spinach aka M'china*
- *Choumoulier*
- *Kale*
- *English Giant Rape*
- *Cabbage*
- *Tomatoes*

Please note that due to the limited land that we have, change of seasons and demand factors, we do not always have in stock all the above listed, hence it is advisable to confirm availability before visiting us.
